

STATEMENT OF BOARDING PRINCIPLES AND PRACTICE

Last reviewed:	August 2025
Next review due:	August 2026
Reviewed by:	Head of Boarding Head of Non-Residential Boarding (host families) Pastoral Director

Boarding is a key aspect of the school's provision. Our aim is for boarding to be a positive experience that enhances school life and helps to develop in students a sense of self-confidence and individual responsibility while at the same time enabling them to live happily and study effectively. We aim to ensure that students are comfortable and well looked after in their boarding environment and that we fully provide for their welfare and wellbeing.

Around 50% of our Sixth Form students and nearly all the students in the International School are boarders. We also have a small number of boarders at our Senior School. The boarding options we provide are varied and offer a great deal of flexibility and choice for students and parents. We offer two types of boarding arrangements: in our boarding houses or with carefully selected host families close to our teaching buildings.

Our boarding houses are varied in size ranging from 18 to 65 students. The students are close in age to one another and the houses are run in a way that reflects the school's general approach to students of this age, with a balance of structure, flexibility and a high degree of personal attention. Students are well looked after; at the same time, they are expected to take responsibility for being part of a community. Relationships among boarders and between boarders and the house staff reflect the nature of personal interactions that we aim to foster in all aspects of life at d'Overbroeck's. The result is that our boarding houses provide a strong sense of community and a comfortable, convivial and supportive environment which contributes positively to the students' personal development.

Host family arrangements, as we run them here, give us the flexibility to meet individual requests from students and parents (for example a piano on which to practice, a private bathroom or a family with pets). They also provide a supportive, homely setting which, in particular for international students living a long way from home, offers a valuable opportunity to live in a welcoming family environment and to further develop linguistic skills and cultural awareness at the same time.

A. Boarding houses

We have six boarding houses and they all provide a welcoming and comfortable environment for our students.

Our boarding houses are co-educational and the boys and girls share a communal area where they can relax, study and enjoy each other's company. In the social area they can play board games, watch movies, form study groups and relax.

The accommodation is securely separated by gender. Each house is overseen by a residential Head of House who is supported by at least one Boarding Assistant or Assistant Head of House. A member of staff is available to the students 24 hours a day to support them with both their academic and social development.

Students have all meals in the school dining hall. The food is provided by Chartwells Independent, a leading catering company for schools and education. The food is of a very high standard and we can cater for a variety of dietary requirements.

There is a study period each evening and a set curfew. These vary a little depending on the age of the student. Each student has their own study space in their room. All rooms have Wi-fi access.

A number of trips and visits are organised at weekends for boarding students. The school is just a short walk from Summertown – a lovely part of Oxford with a theatre, swimming pool, leisure centre and cafés. The centre of Oxford is about 15 minutes by bus.

The boarding experience is an opportunity to live with others and to become independent. The historic and beautiful city of Oxford also provides access to superb leisure and study facilities such as theatres, museums, galleries, libraries and parks.

Both central Oxford and Summertown offer a good mix of shops including banks, supermarkets, cafés and places to eat.

B. Living with a host family

This option for Sixth Form students (predominantly Year 13s) offers the most scope for flexibility and individual choice. We work closely with a wide range of host families in North Oxford, the majority of whom have provided accommodation for our students for several years. Every student has their own single study-bedroom and some also have a private bathroom. Breakfast and an evening meal are provided every day. There are some self-catering options for those who request them.

A great deal of time and care is taken in selecting the right host family for a particular student. The Head of Non-Residential Boarding leads on this after detailed discussions with students and often with parents. Wherever possible, we will suggest at least two different options, and the final choice will be made by the student and their parents after they have visited the houses and met the host families.

It is not always possible for parents and students living abroad to visit the school and see the full range of boarding options. In such cases, we aim to follow the same process as far as possible by telephone, video calls and email, and to give students and parents sufficient information on which to base their choice.

The Boarding Team

All boarding arrangements are made and monitored by the following staff:

- **Head of Boarding – Hannah Mungall**
hannah.mungall@doverbroecks.com 01865 688663
- **Head of Non-Residential Boarding (Host Families) – Emma Brett**
emma.brett@doverbroecks.com 01865 688642
- **Assistant Head of Boarding – Emma Jenkins**
emma.jenkins@doverbroecks.com 01865 688663

In an emergency, senior staff may also be contacted in the evening or at the weekend via an out-of-hours number that is given to all students and parents at the start of the academic year.

Private fostering arrangements

Any arrangement in which a student, under the age of 16, is living with a host family for more than 28 days is classified as a 'private fostering arrangement'.

The terminology is potentially misleading: 'private fostering' has nothing to do with 'being a foster parent.' It refers to an informal arrangement made by parents for a child to live with another family. The private fostering team (within Oxford City Social Services Department) have a duty to ensure that all children under 16 years living with a host family in Oxford are being appropriately cared for and that they are well and happy throughout their stay with their host family.

d'Overbroeck's very rarely has students for whom private fostering arrangements apply. However, if we do, staff at d'Overbroeck's liaise directly with the private fostering team regarding any placement of a student under 16 years of age who is going to live with a host family for more than 28 days, as required under the relevant regulations. The Head of Non-residential Boarding would give the private fostering team basic information about each student (name, age, nationality, guardian/parent details) and details about which host family they would be living with. This would be done soon after the placement is confirmed and no later than seven days after the start of term.

There are specific criteria that such host families must meet, and the private fostering team will ensure that d'Overbroeck's has carried out all the required checks.

The private fostering team would contact the parents or guardian of the students concerned to give them their contact details; they would visit the host family early in the academic year to meet the family members and to check the quality of the accommodation; and they would meet with the student at school once every 6 weeks until either the student has reached their 16th birthday or they are no longer living with a host family. d'Overbroeck's would notify the private fostering team if there were any change to the arrangement and when the arrangement ended.

Our policy and practice in this respect are in line with the Children Act 1989 as amended by the Care Standards Act 2000 and the Education Act 2011, the UKVI requirements for visas, and the National Minimum Standards for Boarding Schools.

Pastoral support and internal communication

The pastoral systems at d'Overbroeck's are described in full elsewhere in our literature. It is essential that the Director of Pastoral Care and Wellbeing, Heads of Residential and Non-residential boarding, School Nurse, Designated Safeguarding Leads, Heads of Houses and other staff with pastoral responsibilities communicate regularly. Various channels are in place to ensure that this is the case.

Seeking boarders' views

We aim to elicit the views of boarders at regular intervals and to act on the comments, suggestions and requests that emerge as far as is practically possible.

In addition to encouraging informal communication at all times, the following initiatives are in place:

- A minimum of one written survey of boarders' views each academic year.
- A Student Council, where students' views on our boarding provision and meals are collected and shared.
- House committee meetings in each of the boarding houses at least once every half-term.
- Feedback questionnaires sent to all students throughout the year. These address all aspects of the school's provision.

Personal development

Our aim is for boarding to be a positive experience that enhances school life and helps to develop in students a sense of self-confidence and individual responsibility.

The school's policy on the social, moral, spiritual and cultural development of students is published on the [school website](#) and available to parents and students on request.

Equal opportunities

Tolerance, fairness and mutual respect are at the core of our school ethos. In boarding, as in all other aspects of life at d'Overbroeck's, we aim to maintain a mutually supportive community marked by tolerance, flexibility and a thoughtful regard for others.

Key to our thinking is the importance of giving students the space to be themselves and to grow and develop in a context in which they feel valued and secure. We take a very strong stance on anything that constitutes bullying in any form, including cyberbullying, and aim to ensure that no student is discriminated against in any way. Please see our various policies - including Anti Bullying policy and Safeguarding Policy – which can be found on the [school website](#).

Medical provision

We have two school nurses – Freya Paterson (Medical Lead) and Sinead Hughes. The Medical team is available to see students during the week. Students may make an appointment directly (eg, via MS Teams) or via a member of staff, or may attend his drop-in clinics on each site. For more information about how we support boarding students who are unwell, please see our procedure for Looking after Boarders Who are Unwell.

All our boarding students are asked to register with the Banbury Road Medical Practice (unless they are already registered with a General Practitioner elsewhere in Oxford). The registration process is as quick and straightforward as possible for the students; registration is online and the school staff will assist students where necessary.

The Banbury Road Medical Practice is geographically close to our school buildings and consists of a number of doctors, both male and female, ensuring that students can always see a doctor quickly if and when the need arises. Appointments can be made by telephone. Contact details for the practice are as follows:

The Banbury Road Medical Practice
172 Banbury Road
Oxford OX2 7BT
Tel: +44 (0)1865 515731

Dental treatment

Boarding students who need to see a dentist at short notice can make appointments with a local dental practice with which we have an ongoing arrangement. These are private practices and treatment is chargeable. Contact details for the practice are as follows:

St John's Dental Practice
25 St John Street
Oxford OX1 2LH
Telephone: +44 (0)1865 515967

Summertown Dental Practice
279 Banbury Road
Summertown
Oxford OX2 7JF
Telephone: +44 (0)1865 558822

Seeing an optician

There are a number of opticians within easy reach of school buildings. Students may walk into the optician's premises and make their own appointments or they may ask a member of staff in school or in their boarding house to help make an appointment on their behalf.

School Counselling service

We have three fully qualified and experienced Counsellors who are available to see students in school during term-time. Students are free to make contact directly with the Counsellors (their contact details are displayed on leaflets around school buildings) and, in some cases, we may suggest to a student that they may benefit from some counselling. In all cases, the discussions between Counsellor and student remain confidential, unless the student, or anyone else associated with them or known to them, is at risk of significant harm.

Independent Person

We have a nominated 'Independent Person, who is not a member of the school staff. Boarders can contact the Independent Person at any time. The Independent Person's name and contact details are prominently posted on noticeboards both in the boarding houses and teaching buildings.

Our independent Person is Jill Partridge. Tel: +44 (0)7776 693448.

Helplines and other contacts

The contact details for Childline and for the Office of the Children's Commissioner are also posted prominently on noticeboards where all boarders can see them.

Policies

The following policies are all available from the [school website](#), and printed copies may be requested from the school office.

- Smoking policy: smoking and vaping in any form are not allowed in any part of the school's buildings or grounds
- Substance abuse policy: we have a zero-tolerance approach to drugs
- Behaviour, rules, rewards and sanctions policy
- Safeguarding and promoting the welfare of children
- Complaints procedure for parents
- Disability inclusion policy
- Looking after boarders who are unwell
