

STATEMENT OF BOARDING PRINCIPLES AND PRACTICE

Boarding is a key aspect of the school's provision. Our aim is for boarding to be a positive experience that enhances school life and helps to develop in students a sense of self-confidence and individual responsibility while at the same time enabling them to live happily and study effectively. We aim to ensure that students are comfortable and well looked after in their boarding environment and that their welfare and wellbeing are fully provided for.

Around 45% of our Sixth Form students and almost all of the students in the International Section are boarders. The boarding options we provide are varied and offer a great deal of flexibility and choice for students and parents. We offer two types of boarding arrangements: in our boarding houses or with carefully selected host families close to our teaching buildings.

Our boarding houses are varied in size ranging from 15 to 60. We also have a small, girls only residence, 'Bensons', which can accommodate up to 8 students. The students are close in age to one another and the houses are run in a way that reflects the school's general approach to students of this age, with a balance of structure, flexibility and a high degree of personal attention. Students are well looked after; at the same time, they are expected to take responsibility for being part of a community. Relationships among boarders and between boarders and the house staff reflect the nature of personal interactions that we aim to foster in all aspects of life at d'Overbroeck's. The result is that our boarding houses provide a strong sense of community and a comfortable, convivial and supportive environment which contributes positively to the students' personal development.

Host family arrangements, as we run them here, give us the flexibility to meet individual requests from students and parents (for example a piano on which to practice, a private bathroom or a family with pets). They also provide a supportive, homely setting which, in particular for international students living a long way from home, offers a valuable opportunity to live in a welcoming family environment and to develop linguistic skills and cultural awareness at the same time.

A. Boarding houses

There are several boarding houses here and all provide a welcoming and comfortable place for our students to live in.

Our boarding houses are all co-educational and the boys and girls share a communal area where they can relax, study and enjoy each other's company. In the social area they can play board games, watch movies, form study groups and relax.

The accommodation is split into girls' and boys' areas which are securely separated. Each house is overseen by residential Houseparents and Boarding Assistants. A member of staff is available to the students 24 hours a day to support them in with both their academic and social growth.

Students have all meals in the school dining rooms. The food is provided by Holroyd Howe a leading catering company for independent schools. The food is of a very high standard and we are able to cater to a variety of dietary requirements.

There is a study period each evening and a set curfew. These vary a little depending on the age of the student. Each student has their own study space in his or her room. All rooms have wi-fi access.

A number of trips and visits are organised on some of the weekends for boarders and day students. The school is just a short walk from Summertown – a lovely part of Oxford with a theatre, swimming pool, leisure centre and cafés. The centre of Oxford is about 15 minutes by bus.

The boarding experience is an opportunity to live with others, to become independent and, being in Oxford, it provides access to superb leisure and study facilities such as theatres, museums, galleries, libraries and parks.

Both central Oxford and Summertown offer a good mix of shops including banks, supermarkets, cafés and places to eat

B. Living with a host family

This option offers the most scope for flexibility and individual choice. We work closely with a wide range of host families in North Oxford, the majority of whom have provided accommodation for our students for several years. Generally, every student has his or her own single study-bedroom; some also have a private bathroom. Breakfast and evening meal are normally provided. There are some self-catering options for those who request them though we reserve the self-catering option for students who are aged 18 or over where we are satisfied that they will be able to cope and thrive in a self-catering environment.

A great deal of time and care is taken in selecting the right host family for a particular student. This is done by Emma Brett (Head of Non-Residential Boarding) after detailed discussions with students and parents. Wherever possible, we will suggest at least two different options, and the final choice will be made by the student and his or her parents after they have visited the houses and met the host families.

It is not always possible for parents and students, if they are living abroad at the time, to visit the school and see the full range of boarding options. In such cases, we aim to go through the same process as far as possible by telephone, Skype/Facetime and email, and to give parents and students sufficient information on which to base their choice.

The Boarding Office

All boarding arrangements are made and monitored by the following staff:

- **Head of Non-Residential Boarding – Emma Brett**
emma.brett@doverbroecks.com Tel 01865 688640
- **Head of Residential Boarding – Kate Higgins**
kate.higgins@doverbroecks.com Tel: 01865 688482

Kate and Emma are always available to students and parents. Should the need arise, they may also be contacted in the evening or at the weekend via an out-of-hours number that is given to all students and parents at the start of the academic year.

Private fostering arrangements

Any arrangement where a student who is under the age of 16 is living with a host family for more than 28 days counts as a 'private fostering arrangement'.

The terminology is potentially misleading: 'private fostering' has nothing to do with 'being a foster parent'; and the private fostering team's primary objective is to ensure that all children under 16 years living with a host family in the UK are being appropriately cared for and that they are well and happy throughout their stay with their host family.

As required under the relevant regulations, d'Overbroeck's liaises directly with the private fostering team within the Oxford City Social Services Department regarding any placement of a student under 16 years of age who is going to live with a host family for more than 28 days. This applies to only a very small number now, about 4-5 students.

Staff in the Boarding Office give the private fostering team basic information about each student (name, age, nationality, guardian/parent details) and which host family they will be living with. This has to be done soon after the placement is confirmed and no later than seven days after the start of term.

There are specific criteria that these families hosting must meet, and the private fostering team will ensure that d'Overbroeck's has carried out all the required checks.

The private fostering team will contact the parents or guardian of the students concerned to give them their contact details; they will visit the host family early in the academic year to meet the family members and to check the quality of the accommodation; and they will meet with the students at school once every 6 weeks until either the student has reached his or her 16th birthday or s/he is no longer living with a host family. We will notify the private fostering team if there is any change to the arrangement or when the arrangement ends.

Our policy and practice in this respect are in line with the Children Act 1989 and 2004, the UKVI requirements for Tier 4 visas, and the National Minimum Standards for Boarding Schools.

Pastoral support and internal communication

The pastoral systems at d'Overbroeck's are described in full elsewhere in our literature. It is clearly important that there be regular and frequent communication between the staff in the Boarding Office, the boarding house staff and host families and academic staff with pastoral responsibilities. Various channels are in place to ensure that this is so.

Seeking boarders' views

We aim to elicit the views of boarders at regular intervals and to act on the comments, suggestions and requests that emerge as far as is practically possible.

In addition to encouraging informal communication at all times, the following initiatives are in place:

- A written survey of boarders' views is conducted in each academic year.
- A 'food survey' is conducted in the two main boarding houses once a year.
- House meetings are held in each of the boarding houses once every half-term.

- Wide-ranging feedback questionnaires are sent to all students and parents (day and boarding) at the end of each academic year. These address all aspects of the school's provision, including boarding and pastoral support.

Personal development

Our aim is for boarding to be a positive experience that enhances school life and helps to develop in students a sense of self-confidence and individual responsibility.

The school's policy on the social, moral, spiritual and cultural development of students is published on the website and available to parents and students on request.

Equal opportunities

Tolerance, fairness and mutual respect are at the core of our school ethos. In boarding as in all other aspects of life at d'Overbroeck's, we aim to maintain a strong sense of a mutually supportive community marked by tolerance, flexibility and a thoughtful regard for others.

Key to our thinking is the importance of giving students the space to be themselves and to grow and develop in a context in which they feel valued and secure. We take a very strong stance on anything that constitutes bullying in any form or medium, including cyberbullying, and aim to ensure that no student is discriminated against in any way, as a result of any of the protected characteristics set out in the Equality Act 2010 or because of cultural or linguistic background, special educational need or academic or sporting ability.

Medical provision

Unless they are already registered with a General Practitioner here in Oxford, all our boarding students are asked to register with the Banbury Road Medical Practice. To make the registration process as quick and straightforward as possible for the students, staff from the medical practice are normally present at our induction days at the start of the academic year, and the registration process takes place there and then.

The practice is geographically close to our school buildings and consists of a number of doctors, both male and female, ensuring that students can always see a doctor quickly if and when the need arises. Appointments can be made by calling into the practice, on the telephone or on the Internet.

Contact details for the practice are as follows:

The Banbury Road Medical Practice
172 Banbury Road
Oxford OX2 7BT Tel: 01865 515731

Dental treatment

Boarding students who need to see a dentist at short notice are able to make appointments with a local dental practice with which we have an ongoing arrangement. This is a private practice and treatment is chargeable.

Contact details for the practice are as follows:

Dr Dhami
279 Banbury Road
Oxford OX2 7JS Tel: 01865 558822

Seeing an optician

There are a number of opticians within easy reach of school buildings. Students may walk into the optician's premises and make their own appointments or they may ask their Houseparent or a member of staff in the school office to help make an appointment on their behalf.

School Counsellor

We have two fully qualified and experienced Counsellors who are available to see students in school at certain times in the week (currently on Thursdays and Fridays) during term-time. Students are free to make contact directly with the Counsellors (their contact details are displayed on leaflets around school buildings); and, in some cases, we may suggest to a student that they may benefit from some counselling. In all cases, the discussions between Counsellor and student remain confidential, unless the personal safety of the student, or anyone else associated with them or known to them, is at stake.

Independent Listener

The school has a nominated 'Independent Listener', who is not a member of the school staff, with whom boarders can make contact at any time if they wish to raise any issues that they don't feel able to discuss with a member of staff. The Independent Listener's name and contact details are prominently posted on noticeboards both in the boarding houses and teaching buildings.

Our independent Listener at present is Mrs Pat Harris Tel: 07789 147750.

Helplines and other contacts

Also posted prominently on noticeboards where all boarders can see them are the contact details for Childline and for the Office of the Children's Commissioner.

Smoking

Smoking and vaping in any form are not allowed in any part of the school's buildings or grounds.

Drugs Policy

The school's drugs policy is printed in the Parent Handbook. A printed copy is available to any parent or student who may wish to receive one.

Safeguarding and promoting the welfare of children

The d'Overbroeck's policy on Safeguarding Children is published on the school website and in Parent and Staff Handbooks. Printed copies are available to parents and students on request.

Complaints Procedure for Parents of Pupils

The school's Complaints Procedure for parents is printed in the Parent Handbooks and published on the website. Printed copies are available on request.

Disability inclusion policy

The school's Disability Inclusion policy and Accessibility Plan are available on request.
